## President's Corner

*Matt Schofield, IMPBA President*

Hello Fellow Boaters,

I hope everyone is healthy and safe during these unprecedented times. Like everything else recreation, RC boating has had a rough year. Not many events have been happening, but I do see clubs getting together and running boats. Our numbers are down this year, but still over 800 members, which is pretty good when all things are said and done.

Congratulations to our newest Hall Of Fame members, Stu Barr #5597 S CD, and Mike Schindler #9112 PL CD. Both have been in the hobby for a very long time, and have helped foster our hobby through hosting events, serving the organization, and competing at the highest level. Thank you to the both of you for all of your time dedicated to the hobby.

The 2020 Gas Nationals hosted by the River City Racing Club has been postponed until 2021. The 2022 Gas Nats will be held in Reserve, LA by the Voodoo Model Boat club. More information for both events will be available at a later date.

Hope you all can get some wheel time and we can get back to racing ASAP. Stay safe and enjoy the rest of summer! ♦

## Treasurer Report

*Mike Chirillo*

*IMPBA Treasurer*

Hi folks. As we all know, the Covid-19 Pandemic has negatively impacted both businesses and personal finances throughout the year. Although the pandemic has also affected the IMPBA's income, we understand this pales in comparison to what many of you are going through.

That being said, I'll keep this short. We closed out the third fiscal quarter at the end of June and as expected, membership numbers are down significantly. Income for the association is down \$6,528 compared to this time last year, and by far the biggest factor in the decrease was the reduction of membership fees. Expenses for the most part held steady compared to last year, and we closed out the third quarter with a deficit of \$2183.50. That being said, we are hoping to pick up a few more members within the next couple of months and we don't anticipate any major expenses until insurance is due at the end of the year. Total assets for the IMPBA as of July 31 are \$54,310, so although we will be at a loss this year, we have a decent reserve.

Speaking of insurance, I know many of us have received insurance rebates due to the pandemic. Unfortunately our insurance company has not offered us any rebate despite the reduction in race sanctions this year.

That's all I have folks. We've received bad news several times already in my district due to Covid-19. Please be safe and don't get complacent. We'll get through this! ♦

# Word from the Office

Lynne Rupley, IMPBA Secretary

Well, like most everyone else, I have not really been doing a whole lot this summer. I was one of the many who decided to step-up my backyard garden this year. Success with all except tomatoes. I had two really full plants, and JUST as everything began to ripen, something stole every last one! Pretty sure I don't need as many zucchini plants, or cucumber plants next time. Oh well, I'm having fun anyway.

## RACE CALENDAR

We continue to have many cancelled races and record trials due to the Covid-19 virus restrictions. Watch your race entry sites, and check the website calendar page for updates. I will post anything I am notified about. Contact the CD for the event if you are in doubt.

## OFFICE UPDATE

Even though our numbers are a bit down, I continue to have memberships trickle in — even in this crazy season. Depending on how the fall pans out, we may see a few late season sign-ups. We have officially run out of decals. Due to the reduced treasury this year, I was not planning on ordering any more at this time. If we do end up being able to order, I will resume sending out with membership cards next season.

## REMINDER:

### Single-Event Online Form

Other organization members wishing to attend IMPBA events must complete the form and payment online prior to the race they are attending. A list of those paid for events appears on the last page of the online IMPBA Current List (updated weekly).

Clubs have a lot to do in order to host a race — show your appreciation by getting your membership in order well in advance of race day.

## DIRECTOR ELECTIONS

District 1 - Incumbent Randy Rapedius has agreed to continue to serve.

District 4 - Incumbent Dave Halverson has agreed to continue to serve.

District 6 - Incumbent Larry Conrad has declined to run, and no nominations were received for this position. A Write-In ballot is in the District reports section.

District 8 - Vacant. No eligible members reside in the district.

District 13 - Incumbent Doug Smock has declined to run. William (Buckshot) Shackelford has been nominated for the position.

National LSG Director - Incumbent Matt Schofield has declined to run. Lance Ledet has been nominated for the position.

National FE Director - Incumbent Mike Ball has agreed to continue to serve.

### Ballot appears on page 10.

All members in good standing and spouses registered with a family membership on their account are eligible to vote for the **National LSG Director** position.

Only members in good standing and spouses registered with a family membership on their account who reside in a districts may vote for their **D6 and D13** Director.

You may also vote online from September 1 through October 31, 2020.

While positions are unopposed, please take a few minutes to vote and show your support for these members who have stepped-up to take an active role in the organization leadership positions.

Special thanks to all of the outgoing Directors for their many years of service. ♦

## OVERVIEW OF FINANCIAL STRUCTURE

The IMPBA organization is a 501(c)(4) non-profit corporation. Sources of income include: Memberships, Club Sanction Fees, Race & Record Trial Sanction Fees, and Newsletter Sponsor Fees. Other fees include printed Rule Book and printed Newsletter, however, costs for these items may exceed fees charged. Donations to the organization are accepted, but are not tax deductible as IMPBA is not a charitable organization. The Secretary & Treasurer ensure compliance with all Federal, State and Local laws regarding non-profit corporations as they relate to Indiana (original state of incorporation) and Ohio (physical office location). Year-end 990 Federal Informational Return is prepared by Vowells & Schaaf, LLP, CPAs. Compliance with By-Laws & Constitution of the IMPBA are ensured through a two-signature account. No two persons domiciled together may sign for any funds. Three officers hold signature rights on the bank accounts: Treasurer, Secretary, & President..

The organization holds: a Savings Account which serves as an escrow for insurance purposes and maintains a minimum of \$15,000; a Regular Checking Account for normal business operations; and a PayPal Sub-Account for the sole purpose of being used for transfer of funds from the PayPal payment system balance. This was instituted as a stop-gap measure in the event of data compromise of the payment system. Fund transfers are routinely done. The bank accounts are currently no fee (with exception for non-sufficient fund, returned items, or foreign conversion.) PayPal charges processing fees based on a percentage of transaction and a flat amount per transaction.

Petty cash will be paid by MasterCard and a detailed report is received by Treasurer monthly. No cash fund is kept at the office. All expenses require a valid receipt be on record.

## RECENT BOARD ACTIONS

### BOARD DECISION

#### Timing Equipment Update

National Records Director, Brad Schafer, and National Technical Chair, Rick Grim, procured 4 sets of adapters and dial calipers reading exactly the same to be kept with the Time Trial equipment boxes. These will be distributed to the time trial sites for consistency in measuring.

*January, 2020 via email correspondence.*

### BOARD DECISION

#### Appointment to Board of Directors for District 14.

After serving as D14 Director since 2010, Mike Schindler resigned his position. The Board appointed **Brad Maglinger** to fulfill the remainder of the current term (through Dec. of 2022).

*BOD approved May 6, 2020 via email correspondence.*

### BOARD DECISION

#### Gas Nationals Races for 2021 and 2022

The Board approved postponing the Gas Nats slated for 2020 until June 10-11-12 of 2021. River City Racing Club will host in Evansville, IN. All entries paid for this year will be honored for the 2021 event.

*BOD approved at Special Meeting April 15, 2020.*

In a separate decision, the BOD has accepted a bid by the Voodoo MBC to host the 2022 Gas Nats in Reserve, LA. Date will be mid-May (tentatively May 12-13-14, 2022).

*BOD approved at Annual Meeting 2020.*

### 1-YEAR TRIAL RULE & TECHNICAL CLARIFICATION

#### Sec. I- LSG / Article V- Specialty Classes

A clarification\* to the Large Scale Gas section of the rule book for Open LSG Offshore class. Originally the section referenced the Nitro Specialized Classes section which then listed Gas rules. For clarity and simplification for the reader, the material was copied into the LSG section. This has been updated on website.

This will make the rules easier to reference for the upcoming **1-yr. Trial Rule for LSG Super Boat Offshore** class which was approved by the BOD. The Super Boats are proposed to run as a separate class rather than in the Open class due to their size (craft are 55 min. to 60 inches max. hull length). The Trial Rule and details will be published in December issue of the Roostertail newsletter.

*\*Result of BOD discussion at Annual Meeting 2020.*

*BOD approved for 1-Yr. Trial Rule At Annual Meeting 2020.*

### BOARD DECISION

#### HALL OF FAME INDUCTEES FOR 2020

Join us in congratulating **Stu Bar #5597 S CD**, and **Mike Schindler #9912 PL CD** for their induction into the IMPBA Hall of Fame!

*Vote at Annual Meeting - Executive Session, June 2020.*

# Silent Engine

**George M. Anastasi**

IMPBA Member #13385 S • Joined 1990

## George Martin Anastasi 1939 - 2020

GEORGE M. ANASTASI, age 81 of Centreville, VA passed away Monday, June 1, 2020. George was born April 29, 1939 to Louis M. Anastasi and Fern E. Anastasi (Thompson). He is survived by his wife, Roma Anastasi; his four children: Leah Hays (John), George M. Anastasi, II "Chip" (Lee), Jennifer Anastasi (Nigel), and Noelle Anastasi, along with grandchildren, and five siblings. He was raised in Tonawanda, NY, and graduated from the State University of New York.

George enlisted in the Navy Officer Candidate School in 1963 and went on to serve 22 years as a Surface Warfare Officer. A shipmate introduced George to Roma DeRocha — they married a year later in 1967 and started their family soon after. George's accomplished Naval career included tours which took him all over the world. He received a Masters from the Naval War College in 1981, and retired as a Commander, USN in June of 1985 with many honors, medals, and awards.

In 1985, he joined Resource Consultants Inc. (RCI) (later Serco), a defense contractor, where he worked for 25 years and retired as Senior Vice President in 2010. He continued part-time with Serco until 2014.

George was a devoted husband, father, and grandfather. He enjoyed golf, skiing, and built a Chris-Craft style wooden boat that he took his family out in. He flew model airplanes and ran radio-controlled boats and was a longtime and active member of the Capitol RC MBC. He was sought after by D12 members for builds and repairs, and was a very generous man who always had a good story.

Internment will be at Arlington National Cemetery.

**A high quality product, along with high quality customer service is our priority.**

[accu-techrhardware@hotmail.com](mailto:accu-techrhardware@hotmail.com)

This Motor List will be in effect until further notice.

## FE 1/8 Scale Motor Technical Notice

As a result of a BOD discussion surrounding the limited options for FE 1/8 Scale motors, we would like all IMPBA districts to allow the following motors listed below be allowed to run in the FE 1/8 Scale Class.

This is, of course, in addition to the currently approved motors that are listed in the IMPBA rulebook. It should also be stated the motors listed below **CANNOT** be used for record trials.

Manufacturer	Model Number	Can Length (mm)	Can Diameter (mm)	Weight (grams)	# of Poles	Cost (Estimate)
TP Power	TP4070	107.60	39.60	505.00	4	\$130.00
HET Typhoon	700-98	98.00	39.00	560.00	4	\$145.00
Turnigy SK3	3994	95.00	39.00	554.00	4	\$90.16
Lepoard	4092	92.00	40.00	492.00	4	\$95.95

While at the local level clubs have **ALWAYS** been able to make alterations to the national rule set for their local events in an effort to encourage participation, this public request is an effort to establish a common agreement between districts allowing those with FE 1/8 scale boats to travel outside of their home club or district and be allowed to race the class with one of the motors listed above.

The **ONLY** request the IMPBA has is to provide feedback. The more detail you can provide to the organization the better! This will allow the IMPBA to be better informed with actual data in racing conditions. All feedback can be communicated directly back to the IMPBA National Fast Electric Director.

**Mike Ball** Email: [indymike75@gmail.com](mailto:indymike75@gmail.com)

*BOD approved at July 2018 Annual Mtg.*

INTERNATIONAL MODEL POWER BOAT ASSOCIATION  
**HALL of FAME**

**STU BARR**

**Stu Barr #5597 S CD**

**S**tu Barr of Greenfield, Indiana, was inducted into the Hall of Fame for 2020. Stu has been racing as an IMPBA member since 1977. He has dedicated decades to developing and fine tuning outrigger hydro designs, and is known for his .45 D Hydro designs.

Stu acquired the Crapshooter line of boats in the 90s, and completely redesigned the hull. Stu's commitment to quality makes his hull line among the best handcrafted, and competitive hydros available to the hobby.

Stu then obtained CMB distribution for the U.S. Other manufacturers had ceased production of anything larger than .21 size. In addition, he helped CMB develop stock engines that are competitive right out of the box. He was willing to take the risk in order to keep larger Nitro engines available to hobbyists in the States.

Stu has been a member of the Indy Model Boat Club and served as its president many times. He was the contest director for the Indy Hydro Masters race which grew to be one of the biggest Nitro Hydro races in the country. The qualifying format was unique and drew boaters from all over. He was

also responsible for organizing the Indy Masters at Hobart race (a.k.a The Clocktower Race) held in Hobart, IN. This well-known race attracted boaters from all over the world.

Stu is an accomplished competitor in his own right, winning 15 US-1 titles in Hydro classes and Multi-Engine to date, and was the Excellence of Performance winner in 2001, 2016, and 2017. He also won multiple Hydro Master and Clock Tower trophies. He has set multiple world speed records and was the first boater to break the 13 second mark for the 1/4-mile oval in 2019. Stu is known as "the guy to beat" if you want to feel like you have accomplished something in the model boating world.

The ideas that Stu engineered into his boats have been shared with many, from the use of lightweight materials like Delrin for hardware, to the on-board shaft oilers, and his .21 size hull design. In addition, countless hours and phone calls are spent helping boaters to get the best performance out of their engines, props and hulls.

Stu is as dedicated to this hobby as they come, and we are proud to count him among the members of the IMPBA Hall of Fame. ♦

INTERNATIONAL MODEL POWER BOAT ASSOCIATION  
**HALL of FAME**

**MIKE SCHINDLER**

**Mike Schindler #9912 PL CD**

**M**ike Schindler of Evansville, Indiana, was inducted into the Hall of Fame for 2020. He has been a member of IMPBA and the River City Racing Club since 1984. He has been club president many times and has been key in its success. Mike served on the Board in the Technical Chair position, and then as District 14 Director for 10 years, and has been instrumental in many rule modifications during this time.

Mike has served as contest director at races for more than 25 years, and has been CD for the IMPBA Internats six times from 2002 to 2018. When the organization was having difficulty finding a host club for the Nitro Nats in 2018, Mike stepped up to form the Racer's Group with other members to host the event in Mt. Vernon, IL. The group donated all race proceeds to charity.

Mike is known for his passion and promotion of the hobby on social media. He started the *"On the Mic with Brad and Mike"* broadcasts a few years ago, and his live streams from races all over the country are enjoyed by many and have drawn much attention to the hobby and organization. Mike is a jokester, and his live feeds always portray the hobby in a fun, and positive way.

He is an accomplished builder of boats. Through the years, he has built countless Scale boats that are Concours winners. He willingly shares his knowledge with others, and has helped many along the way. Mike makes all the racers around him better, and he is always willing to learn something new from them in return.

Mike has won multiple National Championship trophies, multiple Indy Masters titles and the Size Matters Trophy, and has also been awarded the William LeFeber twice, in 2011 and 2014. He has traveled to the west coast to represent the IMPBA and compete in the NW Scale Champs three times.

While Mike is a successful competitor, he is also known to have scratched his own heats just to make sure a race was moving forward smoothly, or to serve as pitboss or in another capacity needed. This speaks volumes about his character.

Mike is an asset to the hobby, not just because of his knowledge of boating and his commitment to the growth of the hobby, but also due to his dedication to helping others — from racers, to clubs, and on a personal level.

Congratulations for an honor well-deserved. ♦

**NEW!**

## SLR Missile Thunderboat

*Kit includes: 1 piece fiberglass cowling, turn fin, and building jig.*

**\$199**

**IMPBA &  
NAMBA Legal**

This is the new Thunderboat designed by Scott Liddycoat and Joe Petro. The SLR Missile prototype set the IMPBA Oval records for 1/4 and 1/3 mile.

Designed for our engine mounts and a Zenoah 23-30cc style of engine.

### New JAE 21GT Nitro Available Now

This is the new version of our popular 21 outrigger. Designed for Heat Racing. Fiberglass Cowl available.

### New Super Sport Gas Mono Available Now

This boat is starting to win in stock mono. Made for stock Zenoah engines. Easy building and inexpensive.

### New Tugster Tug Boat Simple fun for the whole family!

Great for boat retrieval or water polo.

We are a full-time RC boat and aircraft manufacturing company (Since 2006).

We design, develop and cut all of our own kits in house, using our own laser cutter and CNC routers.

Our hardware is made both here in the USA, as well as by our global partners.

Our boats have held over 17 world records:

**JAE 12**

**JAE 21G2**

**JAE 21FE**

**JAE 21OB**

**JAE 45**

**Rockett Thunderboat**

**SLR Missile Thunderboat**

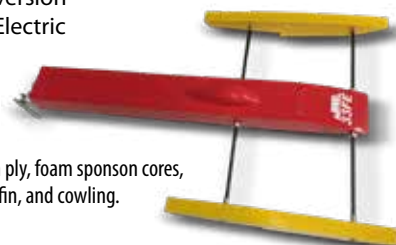

**ABox Crackerbox**

### JAE 21FE V2 Outrigger Hydro **\$109**

This is the newest version of the 21 size Fast Electric

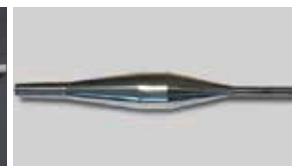

4S Battery  
3650-4084 Motor  
Any ESC

Includes all laser cut birch ply, foam sponson cores, carbon boom tubes, turn fin, and cowling. New "jigless" design.

### Super Tuned Pipe Combo **\$99.00**

Includes V3 Super Pipe, your choice of header, and cooling flange!

### NEW 21 Nitro Pipe **\$89.00**

Excellent race pipe! For .21 side or front exhaust.

**Nitro Boat Kits • Gas Boat Kits • Fast Electric Boat Kits • Tug Boat Kits and Accessories**  
**Aircraft and Accessories • and much, much more**  
**Gift Certificates Available**

**If you are not satisfied with your purchase, you can return any product within 30 days**  
for a full refund, including shipping! No questions asked.

As long as you bought it from us, and it hasn't been more than 30 days since you received it, we will refund you, or give you store credit — your choice.

*Note that this only applies to items shipped to the US 48 states.*

**Your satisfaction is our number one priority.**

### National LSG Director

**Matt Schofield**

With the Covid-19 pandemic racing has been very minimal this year. With the minimal racing I have seen some newer designs coming out for the LSG Sport Hydro class and a few others. Follow Phil Thomas Hydros & Scott Liddycoat's facebook pages for some spy photos and videos of what they have been cooking up.

As previously mentioned, the 2020 Gas Nats has been postponed until next year. The 2022 Gas Nats will be held by the Voodoo Model Boat club. It looks like it will be held in May as done in previous year. They have a great site and are a fantastic club for hosting this event. I believe it will make it the 5th time the Voodoo club has hosted the Gas Nationals. Thank you VMBC!

Stay safe out there and hope to see you at the pond in the near future. ♦

## National LSG Director Nominee

### **Lance Ledet**

#### **#21154 S CD**

resides in Winnfield, Louisiana  
in District 5.

My name is Lance Ledet, and I have accepted a nomination to run for the position of IMPBA National LSG Director. I am appreciative of the opportunity and ask for your support. I am currently the Vice President of the Voodoo Model Boat Club, and have been involved in model boating since 2015. I am also a certified CD. Voodoo club has hosted several National events and I believe I can help to apply what we have learned to assist other clubs in hosting a successful Nationals.

I have raced all over the country and attended many National events with both IMPBA and NAMBA, and regularly talk with Gas boaters and understand their interests and I stay on top of the current trends. I build boats, and also modify engines. I truly enjoy all this hobby has to offer, but especially the great friendships that are one of the main reasons I participate. I have learned a lot thus far, but I know there is always more to learn

I get so much out of this hobby, and would like to give back (as many others have) by serving as an officer. I want to see this hobby grow, and I look forward to helping to make our Gas Nationals events continue to be the huge draw they have been over the past decade. I look forward to talking to members and clubs about ideas to make their racing experiences even more fun and exciting, and build on the success of the previous Gas Directors.

I will do my best to enthusiastically serve the hobby proudly. Please cast your ballot in support of my nomination. ♦

#### **Mail-in Ballot on page 10.**

*Online voting will open no later than September 1.  
Votes must be received by October 31.*

## NEWSLETTER

**AUGUST 2020**

We now offer an X437/3R propeller. This prop is cast in beryllium copper and fits on a 3/16" shaft. This is ideal with the standard X437/3 when setting up smaller boats with counter rotating props. We also offer flex cable in standard left lay or right hand lay.

Speaking of cable, we now offer the .187 (3/16") left lay cable in a standard or our new stiffer version.

We have available three popular sizes of moly-nylon thrust washers in packages of 10.  
OC4TWM - fits 1/8" shaft with a 1/4" o.d.  
OC6TWMM - fits 3/16" shaft with a 5/16" o.d.  
OC8TWM - fits 1/4" shaft with a 7/16" o.d.

OCTURA® MODELS, INC.  
7351 North Hamlin Avenue  
Skokie Illinois 60076  
phone 847 674 7351 fax 847 674 7363

You asked for it. We made it. We now have available a 4mm brass streamlined prop tail nut. It is similar to our OC6PNMM prop tail nut for the 10-32 thread on a 3/16" shaft, but this is designed for a 4mm threaded prop shaft. Shown below is our full range of prop tail nuts.

We have expanded our assortment of prop reducer bushing. The sizes available include -  
OC46RB - for installing 3/16" bore props on an 1/8" shaft.  
OC58RB - for installing 1/4" bore props on a 5mm shaft  
OC4MMRB - for installing 3/16" bore props on a 4mm shaft.  
OC68RB - for installing 1/4" bore props on a 3/16" shaft..  
These reducers are ideal when fine tuning your propeller selection, especially if you are borderline between two different shaft sizes, or if you are trying to fit a prop on a metric shaft.

We are offering a new rudder assembly. The OC6WRLXL is available for a limited time. It comes with the X long rudder blade measuring 7 3/4" from top to bottom. It has a one piece aluminum mounting bracket (with sleeve bearings installed), pivot shaft, washers, break-away nylon tiller arms (to protect the stern of the hull) and a water pick up machined on the left side. It comes with four @ 6-32 mounting bolts and matching t-nuts.

Our starter belts come in four sizes.

Large - 19 3/4" circumference

Medium - 17" circumference

Small - 15" circumference

Extra-Small - 13" circumference

We also now offer radio box tape.

We still offer an ever expanding assortment of flex hexes, drive dogs, universal joints, motor mounts, flex cables, auto bailers, bearings, struts, flywheels, propellers, etc.. If you haven't seen our latest product information guide, it is just a phone call away. Give us a call and we will be happy to send you a copy.

## D1 Membership Holding Steady Despite Unusual Season

The 2020 District 1 season sure didn't transform into what we had expected. The Northern Lights MBC big CAN-AM race needed to be cancelled. Unfortunately, the Canada/US border still remains closed for non-essential travel. The Rochester MBC also cancelled their races. On a positive note, Pete Forcier and the Southern Tier NY crew are still hosting smaller races in Caton (Pine City), NY as part of their own club high-point series.

As far as membership numbers go, it appears our district has weathered COVID-19 quite well so far. We are currently at 104 members which is where it was last year at this time. A recent surge has occurred in our district. Many past D1 boaters have decided to return to IMPBA. The Northern Lights has a record 33 members and the Rochester MBC holds steady at around 15. I would like to give a big shout out to Craig Mapstone #20305 S CD. He has been allowing boaters to use his private pond for testing. It is guys like Craig who have kept people interested during these difficult times. Thank you, Craig!

I've noticed more and more boaters are gathering just to hang out and have fun. Perhaps a year off is what we needed to regroup and bring the fun and comradery back into our hobby. ♦

Paul Hendrickson #15250 S

*D1 member, Craig Mapstone, has been graciously allowing boaters to use his private pond for testing. Thanks Craig!*

## Dayton RC Boat Club Participates in Wake The Lake for 4th Year

By Mike Voorhees, Dayton RCBC Secretary

The Annual Wake The Lake F-1 Powerboat Race is set for it's 4th straight year at Champions Park in Springfield, Ohio, on August 7, 8, and 9 and the members of Dayton RC Boat Club will be there for their 4th time hosting a display and demonstrations of radio controlled model boating.

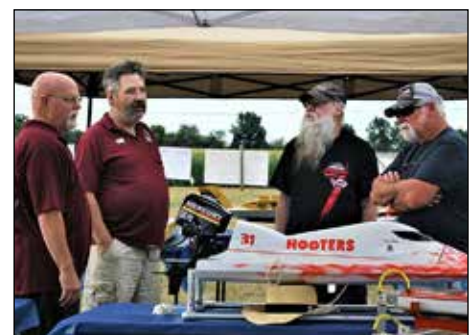

The venue and promoters have worked hard with APBA to implement safety precautions in the Covid-19 environment so that fans and racers alike can enjoy what is the first major boat race since professional (and amateur) sporting events across the country were halted.

The Dayton club was first approached in 2017 when club member, Randy Kimble, was working with the promoter of the APBA event. He was asked if the club could put up a display tent to show off their beautifully built remote control boats and give fans something to do between scheduled racing. Club President, Dennis Post, and Vice President, Scott Taylor agreed to give it a shot. It was so popular, and so many wanted to see the boats run, that the promoter then requested that they put them on the water so folks could see them in action.

The club has happily returned every year, and will be set up again this year. Club secretary, Mike Voorhees, noted, "This gives RC boating great exposure. Most of the time clubs are running at pretty isolated, or private locations. How often do you get the chance to show off to 10,000 plus spectators? The tent display is quite popular, and we hand out flyers and talk with people about the hobby. Our club has gained 6 to 8 new members in recent seasons through this exposure."

The Dayton Club has 20 plus members and growing. They have been blessed to have a property owner that has allowed them to do several improvements to the pond area in Medway, Ohio, including a driver's stand and launch dock in 2017, and an improved launch dock 2.0 in 2018.

Visit [www.wakethelakeohio.com](http://www.wakethelakeohio.com) for more information, visit the club facebook page and website ([daytonrcboatclub.org](http://daytonrcboatclub.org)), and make your plans to check it out next year. Enjoy some pics of previous years' activity and some of the club members' cool boats from Test and Tune days at the club pond. ♦

The Dayton Club at the 2019 Wake The Lake F-1 Powerboat Race

## D3 Working To Bring Back “Main Event” Racing

Racing is usually slow during the summers here in Florida, but this year is crazy slow. Therefore, I've been busy refurbishing a Twin, E Hydro, Single F Hydro, and building a new D Hydro. Might even get to finish a Mono (gas or 1.01...can't decide). Thanks to Scott Adams for an opportunity to build one of his beautiful creations.

The exciting endeavor to grow the IMPBA in D3 has become a team effort. I have reached out to several key IMPBA members in Gas, Nitro, & Electric to provide their individual expertise in these specific areas of RC Boating. The representation is from most all areas of the state, and truly is a who's who list. It will take a team effort to make IMPBA racing in Florida thrive. My focus is taking advantage of the opportunity to grow specialized racing events.

One exciting aspect will be the return of Main Racing! The goal is to offer a race titled “The Main Event” where each racer per class gets to qualify their entry into the sequence of mains. Qualifying will be one attempt at one lap, and I estimate it should be able to be completed within 4-5 hours. Those boats in the lowest mains begin racing at the end of qualifying. I hope the enthusiasm of this race will eventually grow into a 3-day event.

Winner or winners of each main (depending on class size) move on to compete in the subsequent mains. I hope this race will gather momentum in the coming months, so it can be offered once racing returns. You will find this format most competitive for all levels of boaters.

Stay tuned for the next D3 report on the progress of “The Main Event”. I'll also be sharing the list of valuable Assistant Directors that I'm so very honored to have on the IMPBA D3 team.

Thanks Dad!!! ♦

## Hello D5 Members!

Well, as you know the Nitro Nationals scheduled for early April was cancelled. Voodoo club unfortunately did not see sufficient entries by the deadline to put on a full-blown Nationals, so decided to convert the event to the Mike Cantevespri Memorial Shootout. Then along came Covid-19. Needless to say, the event had to be cancelled per local restrictions.

Club membership is slightly down, but perhaps as the year progresses some will return for late season club activities and for the races to be held later in the year. Voodoo World Championships is still scheduled for November 20 through 22 in Reserve, LA. This event was previously all Gas, but was modified to include all powers last season. The club is also seeing a resurgence of guys interested in running vintage Nitro boats that formerly ran only Gas. At this point the Parish is still allowing events to continue. The club anticipates a good turnout for this event which has been growing every year. There promises to be some great drone footage again this year.

There are a couple groups in D5 territory who are considering becoming clubs with IMPBA. I have visited one site in Paterson, LA, and it looks promising — not a site for large events, but perfect for a nice club facility. The group in Knoxville, TN, a.k.a. The Knoxville Gang, has been considering becoming a formal club. The group travels to

many races, and they have a lot of experienced members with some awesome and very competitive boats. We also have a group in Mississippi that consists of guys who were previously members of the Mississippi Model Boaters and used to run at Holmes State Park. They are actively looking for a pond location at this time, but events this year have made that a bit difficult. Hopefully they will have better luck next season.

The Huntsville Model Boat Association did not hold their early Time Trials slated for April. They first attempted to move the date back a bit, but eventually had to cancel. They are still scheduled to hold their annual Turkey Day Time Trial in November on the 27 & 28. The club, which is dual sanction, is also hosting the NAMBA Nationals event this year. They are also in discussion about possibly hosting another IMPBA US-1 Nitro Nationals. That would be exciting, and Huntsville puts on a fantastic event which has been well received by Nitro boaters. Nothing is formalized at this point, but stay tuned for any updates. ♦

**DISTRICT 6 DIRECTOR POSITION  
WILL BE VACANT BEGINNING JANUARY 1, 2021.**

There were no nominations sent in to fill this position for the next 3-year term beginning January 1, 2021. The D6 Director term is up this year and I have enjoyed being on the Board, but I am not seeking re-election to this position.

Our district has 1 Power Vote on the BOD.

**A Write-In Ballot appears on page 10.**

Please consider discussing with your fellow D6 members and nominating someone as a write-in candidate. That person would have to formally accept the nomination before they would be considered elected to the position.

## D12 Clubs Enjoying Pond Time in 2020

As with all the districts, District 12 activity has been slowed by COVID. Although we are not operating as normal, we are still enjoying our ponds and friends. Both ODMBA and Delmarva MBC have been running one-day club races. ODMBA has a set schedule of the third Sunday of each month. Their pond is in Smithfield, VA, and racing begins at 9. Delmarva is running club races on Saturdays in Queenstown, MD, but with no set schedule. When a race is set, it will be posted on the D12 Facebook page.

The Joseph Sparr Memorial Race at Fort Ritchie hosted by the Baltimore RC club is still a go so far. They are limiting entries to follow local COVID guidelines, so go get signed up quickly. Racing is September 12 & 13.

Since Roostertail content is slim right now, I decided I would tell you about my new 1/10 scale Pay 'N Pak. A few of us have been trying to get 1/10 scale class going. Over the winter I was looking at the Dumas web site and saw the 30 inch Pay 'N Pak kit was available for \$100. My first thought was that they just have not updated their web site in 20 years, but I clicked on the order tab and it let me buy it. When I got to the shipping page, it said \$10 to ship — now, I really figured it was a 20-year old web page! But I went through with the purchase. It took a few weeks and it showed up.

I am sure most of you are saying, “30 inches is not 1/10 scale.” You are right! I have never been a math whiz, but I figured the real boat was 30 feet, so 30 inches is 1/10 scale. Simple right? Well, duh, I was wrong (forgot to convert feet to inches didn't I?). 36 inches is 1/10 scale. So, I still don't have a 1/10 scale, but I do have P-limited Sport Hydro. I was amazed how well it runs on electric. My GPS showed 51 mph and with a Tyndall turn fin, it corners nicely. I also enjoyed building it. I got used to building laser cut kits, so building with die cut parts that do not fit was challenging.

That's all for now. ♦

## D13 Moving Forward with Fall Race Plans

Hey Gang, I hope everyone is doing well. As you know Covid-19 has put a stop to nearly all racing in the organization. As of now, we have three D13 races left to go this season, and we are going to try to make them happen. I ask that you please follow any guidelines the clubs put forth at these events. Of course, if things change we will have to consider cancelling these events, so check the race entry sites regularly as we get closer to scheduled dates. Stay safe and I'll see you at the pond. ♦

### **FCMB Grand Prix**

**September 12th & 13th**

Race will be held at SOWEGA MB pond in Sycamore, GA

### **CMB Fall Nats**

**October 9th - 11th**

John's Island, SC.

### **SOWEGA Grand Prix II**

**November 13th & 14th**

Sycamore, GA

## D13 Director Nominee

My name is William Shackelford, known to most of you as "Buckshot". I have accepted a nomination for the position of District 13 Director, and am asking for your support.

I started boating at a very young age as my father (Tom Shackelford, IMPBA #11010 S) was racing before I was born. I was an original member of the Alamo Model Boaters in San Antonio, TX, before moving to Fort Worth, TX, in 2002, where I was a member of the North Texas Model Power Boaters.

In 2015, I moved to Atlanta, GA, and joined the Atlanta Model Boaters. I have been fortunate to have raced all over the world, attended many great events, and made many exceptional friends. I'm looking forward to being D13 Director and continuing the great things that Mr. Smock has done during his tenure as our Director. ♦

### **Mail-in Ballot on page 10.**

Online voting will open no later than Sept. 1.  
Votes must be received by October 31.

## The Heat is on in District 14!

I want to take this opportunity to thank Mike Schindler for his 10-plus years serving as the District 14 Director. The IMPBA Board appointed me earlier this year after Mike decided to resign — he is focusing his energies for the next few years on a goal of retiring. He has helped pass the baton on. Mike will still be very involved in D14 and IMPBA. Best of luck and see you at the pond.

In District 14, we have been fortunate to hold a couple of races with GREAT success. We started out on June 27th at the Madison, IN, PropWalkers Model Boat Club for the first District Series Points Race with a great turn out and some great racing! You can tell the Madison Group is very involved with the community and the park that lets them use their pond. They had the local fire department on site selling concessions, and there were plenty of spectators. The spectators at this race are always great because of the history the community has with Hydroplane racing. The Madison club does a very good job with safety, and they love to have fun, which to me is the best recipe for this hobby. The rain held off all the way until the trophies were presented, but it worked out in our favor as it sure did cool us off. It was great to see the battles of the heat racing, and I was happy to see some new and old faces.

Draven Hamilton, age 11, had his first race in RTR and came home with his first trophy in IMPBA. It's always great to see some young blood getting into the hobby, I can guarantee Draven will never forget this race. Mario Johnston made his first appearance at Madison, and also brought with him Joe Peters. Hats off to the PropWalkers — we can't wait to race there again soon. If you have not been to their site, definitely put it on your radar. They have great people who know how to have a lot of fun. Also check out the media coverage they received at the MadisonCourier.com (<https://madisoncourier.com/Content/Sports/Sports/Article/Mini-Hydros-hit-the-water-on-Krueger-Lake/18/289/119495?s=1>)

Draven Hamilton with his RTR at the Dennis Holt Memorial Mini-Regatta

Next, we went to Evansville, IN, where River City Racing Club held the second District Series Points Race for the original "Little Thunder" on July 11 & 12. It was a great turn out with people coming from all directions. The heat was on in all classes, from the passes Sam Bowden made in 40 Hydro, to the dominating performance from Buckshot with his 101 Slingshot Rigger, the deck-to-deck Sport 40 racing, and Kim Grim giving all the guys a run for their money in Gas Mono. Jersey Skiff sure did have its biggest turnout with 7 Skiffs

Skiffs at Little Thunder in Evansville, IN

and it kept the CDs on their feet. I would have to say there was a lot great racing, but my favorite nail bitter moment was 1/8 Scale. Mark Voorhies and Curtis Maglinger pulled away from the pack at the start and continued deck-to-deck from start to finish! Mark lead up to the 5th lap when he left the door open on turn one. Curtis squeezed his Winston Eagle in which had everyone at the edge of their seats. Congratulations to all the winners, and thank you to all for the safety precautions taken at this race. We also had a new boater, Ryan Wininger, place third in D Tunnel — he became a water baby with no fight.

## Heat

*continued from page 32.*

Unfortunately for the Southern Indiana Propnuts, their famous Wine Run was cancelled due to Covid-19, and this has to be one of the fastest sellout 1-day events around. We will all be chomping at the bit for the race in 2021. Driftwood RC Model Boat Club has also had to cancel their August Celina Summer Challenge race due to the Covid-19. Many people were scheduled to attend, but we will all have to wait for 2021 for that one too. With these two races cancelled, we have just two more races in D14 for the remainder of the season. River City RC is holding the Corona Race in Evansville, IN on August 8th and 9th, and the Jack Kohlmeyer Fall Classic on September 19th and 20th also in Evansville, IN.

## Congratulations!

On a final note, I want to congratulate two of our D14 members for being inducted into the IMPBA Hall Of Fame!

**Mike Schindler** #9112 PL CD, and **Stu Barr** #5597 S CD, were both voted in by the Executive Board at the Annual Meeting. We had plans to do a big surprise presentation in Celina, but, well, that fell through (darn Covid) and they were notified early about the awards. This is a well-deserved honor on both accounts! ♦

☐ Q Entered \_\_\_\_\_

This page intentionally left blank -  
mail-in form on reverse side.

## Q. When Is a Race Sanction Needed?

A. As a general guideline, your club should send in a sanction form for any event which you intend to advertise and invite persons outside of your club. This includes other IMPBA members and other recognized organization members such as NAMBA. This also allows you to accept the Single-Event Fee from a NAMBA member to enable him/her to race and be covered by IMPBA general liability insurance. Also any special exhibition races that you expect to be covered by IMPBA insurance need to be sanctioned as the site for the event must meet IMPBA safety criteria to be covered under our policy. A club race for your club members does not require a sanction. Only sanctioned events & flyers will be listed on the IMPBA website Races/Events tab and Master Schedule.

## Q. What Does a Sanction Mean?

A. A **Sanction** is the official authorization of an event. A Sanction tells prospective participants that your club and pond are insured and they are therefore protected as IMPBA members, and that you agree to abide by all IMPBA Rules and Regulations. Contest Directors running the event and the CD/Referee making the calls must have successfully completed the CD test and carry the CD designation on their card. Deviations from competition rules are allowed as long as they are clearly stated on the entry form or site. It ensures participants that the rules will be impartially enforced, and guarantees the results of the event will be recognized as official.

## Q. Who Approves a Sanction?

A. The **Director** for the district in which the contest is being held is responsible for approving sanction requests. This allows the Director to coordinate events within the district to avoid overlap that would affect attendance at your event or an event elsewhere in the district. When you submit your form directly to the IMPBA office, if it is not already signed, the office will contact your Director to verify the dates were approved. If there is a conflict, your director will contact you to work with your club on a solution or alternate date.

## Q. How Many Times Can a Single-Event Fee Be Paid By Non-IMPBA Members?

A. **Multiple times.** IMPBA allows persons who have a paid membership to other boating organizations to pay a fee so that they are included as a covered party under our General Liability insurance. They may pay this fee as many times per year as they wish. The \$15 fee allows running in that event only. The other organization member must pay a separate \$15 fee for each IMPBA sanctioned race he/she wishes to attend. The Single-Event status is not available in leu of a paid membership to a boating organization! To run on an IMPBA insured body of water you must be a paid IMPBA member, or a paid member of another organization who pays the Single-Event fee to run at an IMPBA sanctioned event. The Single-Event form and fee MUST be completed online (preferably at least on week prior to the event), clubs will not accept these fees at the race site.

## REMEMBER: SAFE BOATING IS NO ACCIDENT!

**It's up to all of us to stay safe, so if you see something... say something!**

### GENERAL

All IMPBA members and /or contestants are responsible to conduct themselves in a manner consistent with the concept of good sportsmanship: to wit, a person who plays fair and conducts him/herself in an acceptable fashion while participating in IMPBA events.

The use of alcohol or illegal substance and/or abuse of prescription drugs while participating in an IMPBA race or sanctioned event is considered unacceptable conduct and is a Code of Conduct violation.

IMPBA reserves the right to deny membership to any individual who has, at any time, demonstrated unsafe boating practices, been suspended, or banned from another boating organization for any amount of time, or for any reason.

Adequate provisions shall be made for the safety of the contestants and spectators.

Club Safety Officers should inspect the pond area prior to Open Water, or start of events to ensure IMPBA rules are in effect and adequate protections are in place. A first-aid kit should be maintained by the officer.

Boats not considered safe may be denied running privileges. Additionally, boats that show erratic behavior indicating possible control problems may be ordered off the course and given points for "Did Not Finish." The driver must demonstrate the problem has been repaired before he/she may continue in the next heat.

Frequency flags/tags and impound procedures will be used on transmitters. A radio may only be turned on when the correct frequency flag/tag is available.

2.4 Ghz frequency transmitters are exempt from these rules.

### SITE SAFETY

"NO SWIMMING" signs MUST be posted on all sides of pond.  
No person shall be permitted in the water without express permission of the Contest Director.

No model boats may run while the retrieve boat is working or any full-size boat is in operation.

Persons under 16 must wear U.S.C.G. approved personal flotation device while operating the retrieve boat. PFD should be available for each person in the boat.

Safety Netting should be placed on all sides of the pond exposed directly to spectators and contestants. Any area not covered by netting MUST be kept free of all people and animals during the event using signs, ropes, or barriers.

Caution tape, signs, barriers, fencing and/or netting shall be used to keep spectators out of the water and a minimum of 25 feet from the shoreline, and signs posted: "No Spectators Beyond This Point"

Race officials, contestants, and their assistants (identified by the neon safety wristbands) are the only persons allowed in the pit/engine test area.

An effort should be made to protect boaters in the pit area by using netting, or a raised launch area.

Tent & canopy, or similar, must have in-ground anchor.

Fire extinguishers MUST be in the pit/engine test area.

No smoking in pit/engine test area.

Host club should provide depository for disposal of racers' contaminated fuel

Drivers stands/steps should have reasonably slip-resistant surface and hand-rails on all sides.

### SAFE OPERATION

Whenever running a boat, whether during a race or practicing, there must be a spotter for each driver to watch for unsafe conditions.

When in the pit/engine test/launch areas shoes MUST be worn. Sandals or open-toe shoes are NOT acceptable.

Boaters should test their radio operation before starting an engine.

Always WALK TO THE LAUNCH SITE.

Once a boat passes the entrance buoy, there will be NO RE-LAUNCH.

Never bring a boat to the pit area straight in —  
ALWAYS RUN PARALLEL TO SHORE while slowing it down.

**This review is NOT an all inclusive list of Safety Rules. Additional rules apply.**

**Please review the entire Safety section of the IMPBA Rule Book!**

## Summary

IMPBA membership dues include commercial general liability and property damage insurance which protects individual members, registered clubs, municipal & state park boards, and private landowners from suits by third parties who may be injured by model power boats that are operated on IMPBA insured bodies of water for which member

clubs have submitted the correct application (on a Club Registration and Insurance Application form), and have been issued an insurance certificate. Since rates or coverages may vary from time to time, up to date insurance information may be obtained from the IMPBA office.

## Membership Coverage

All members in good standing will be covered at "sponsored, scheduled, and supervised activities." This means the coverage is good at sanctioned and club races, and open water practice sessions as long as you are following the safety procedures outlined through the IMPBA, and such events take place on an IMPBA insured body of water only. IMPBA's policy is considered a primary policy and would cover the

costs of property damages or injuries to third parties caused by IMPBA event participants that may occur on an IMPBA insured body of water. It would also cover the cost of your legal defense and settlement or award should you be successfully sued - up to the policy limits. A deductible applies per claim. For current coverage and deductible information contact the IMPBA office.

## Non-Member Coverage

The insurance does not cover any person who is not a paid member of IMPBA regardless of what other club or organization he may belong to. Paid members of other boating organizations may pay a

single-event fee of \$15 for membership dues **during that event only**. The single-event application and payment must be completed online and can be found at [www.IMPBA.net](http://www.IMPBA.net).

**Therefore, no person may operate or assist in the operation of a model power boat, or enter the pit area, or operate a retrieve boat at any IMPBA sanctioned event on an IMPBA insured pond, and be covered by this insurance, unless he is a paid member of IMPBA.**

## Insured Sites

- No club may apply for insurance for a body of water presently or previously insured by another IMPBA Registered Club without the permission of that club.
- All Clubs applying for insurance on a body of water should submit a club application and a signed letter from the pond owner, on letterhead, giving their authorization for your particular club to conduct Model R/C Boat activities at that particular site.
- Permanent and temporary structures, such as drivers' stands/scaffolding or bleachers, are not covered by IMPBA insurance.

## Safety

- It is not the intent of IMPBA to issue insurance to any organization that does not comply with and foster IMPBA Safety Rules and Regulations
- Adequate provision shall be made for the safety of the contestants and spectators.
- **"NO SWIMMING" signs** should be posted in conspicuous places on all sides of the pond.

**REMEMBER: SAFE BOATING IS NO ACCIDENT!**
